YOUR TOOLS ARE PERFECTLY ORGANISED AND SAFELY TRANSPORTED

With an ATORN tool trolley, not only can you bring order and clarity to your workshop - you can also achieve the utmost efficiency in an elegant design and with uncompromising quality. Every trolley is a reliable partner that ensures that you are perfectly equipped at all times with well-thought-out details, robust materials and ergonomic comfort.

Whether as a universal assistant, a reliable companion for electricians or as a powerful XL partner, ATORN tool trolleys stand for precision, reliability and the noticeable improvement to everyday work. Here, functionality and style combine to form a mobile workplace that inspires, motivates and takes work to a new level.

And to ensure that each tool has its own fixed position, our high-quality system rigid foam inserts in sizes $\frac{1}{3}$ (172x345 mm), $\frac{2}{3}$ (344x345 mm) and $\frac{3}{3}$ (516x345 mm) ensure the perfect organisation system.

Filling pieces ensure that the inserts fit perfectly into any drawer. Thanks to clever recesses, the filling pieces also offer something extra: Screws, small parts and accessories can be neatly stored - within easy reach, securely and in an organised manner. This makes your tool trolley a smart all-rounder that perfectly combines efficiency, organisation and convenience.

ATORN ELECTRICIAN'S TOOL TROLLEY WITH SEVEN DRAWERS

equipped with 114 tools in hard foam inserts

This tool trolley is the perfect professional mobile workshop for electricians. Equipped with high-quality, carefully selected tools, it offers exactly what is needed for everyday work - from precise pliers to insulated screwdrivers to ESD tools.

All tools are nestled perfectly in high-quality hard foam inserts - clearly arranged, protected and immediately within reach. Thanks to sophisticated organisation and robust construction, you can work safely, efficiently and professionally at any time - whether during installation, maintenance or repair.

ATORN SOCKET WRENCHES WITH A SYSTEM

With our system, you can buy the basic tool and expand it as required with the appropriate socket sets. This way you can customise your set without unnecessary duplication of tools. Each socket set has a high-quality finish, is precisely manufactured and perfectly coordinated - from 1/4 inch for precision to 1/2 inch for power.

All components are stored in robust hard foam inserts and fit precisely - clearly arranged, protected and always within reach. Tools and components are securely stored, whether in the tool trolley, workbench, assembly trolley or on the shelf. The two-tone polyethylene (PE) foam inserts provide quick orientation: black at the top for a clear

overview, blue at the bottom for a practical contrast. With a depth of 345 mm, they are sturdy and practical at the same time. The closed cells mean that they remain impervious to most oils and chemicals. The PE foam is lightweight, durable, odourless and even food-safe - ideal for daily use in the workshop or on the go.

Depending on the tool kit, inserts in the sizes 1/3 (172 x 345 mm), 2/3 (344 x 345 mm) or 5/6 (516 x 345 mm) cradle your tools. For you, this means maximum flexibility, space-saving organisation and the exact tool you require at any moment.

OPTIMUM OPERATING CHARACTERISTICS OF DRAWERS

HIGH QUALITY -
MADE IN GERMANY

TOOL CABINET SYSTEM 700 S

ROBUST. ORGANISED. RELIABLE.

The HK tool cabinet is synonymous with sophisticated organisation and long-lasting quality. With its robust design and clean lines, it brings order and clarity to workshops, production areas and service areas.

The sturdy construction ensures reliability in everyday use, while the modern colour scheme of light grey and gentian blue creates a professional look. Precise, smooth-running drawers make handling easy and convenient.

Whether for storing tools, measuring equipment or accessories, this cabinet creates space, improves workflows and supports efficient workstation design. Made in Germany.

DURABLE DURALINE FLOOR MARKING TAPES

Showing the way

With the high-quality DURALINE floor marking tapes you can rely on maximum safety, clear structure and a professional appearance in your company. The robust, self-adhesive tapes are made of polyvinyl chloride (PVC, soft), can be applied quickly and easily, are highly durable and create permanent order in working or high-traffic areas.

All versions meet the requirements of ASR A1.5/1.2 "Floors" in accordance with DIN 51130 and offer R9-tested slip resistance. This makes them ideal for use in warehouses, production facilities, workshops, schools, hospitals and public facilities. They are also suitable for in areas where forklifts are used - excluding areas where steering, braking and turning manoeuvres are performed.

Your benefit: Easy to use, tested safety and long-lasting quality - for greater efficiency, safety and added professionalism.

**QUICK AND EASY INSERTION/
REMOVAL OF DOCUMENTS**

DURABLE DURAFRAME MAGNETIC

The magnetic info frame

With the innovative DURAFRAME® MAGNETIC, you can present your information perfectly. Whether it's posters, notices or important documents - with the elegant magnetic folding frame, you can present everything quickly, neatly and professionally.

The frame easily adheres to metallic surfaces such as steel doors, racks, machines or whiteboards and can be removed and repositioned at any time. Made from robust PVC hard film with magnetic back, it offers maximum flexibility: removable, reusable and can be used in both portrait and landscape format.

This makes all your information really eye-catching - neatly presented, positioned freely and always framed correctly.
